vanRaam: More Than a Manufacturer

Everyone deserves the freedom and independence to get around, regardless of age, disability, or personal circumstances. Sometimes you need extra safety, more comfort, or greater stability.

There is no standard solution for all these individual needs and challenges. What you need is a bike that adapts to your life—not the other way around. A bike that restores your confidence, broadens your world, and allows you to enjoy every journey, every day.

That's why Van Raam doesn't build bikes on an assembly line, but creates unique, tailor-made solutions. These range from tricycles, scooter bikes, wheelchair bikes, tandem bikes, double rider bikes to low step through bikes. Each model is also available as an electric bike (Pedelec).

HISTORY

A family company with over a century of experience!

vanRaam has been manufacturing bicycles for almost 110 years, and for more than 40 years the focus has been on special needs bicycles. Around 270 employees at vanRaam have the goal to offer sustainable and contemporary mobility to as many people as possible. We do this with Dutch quality bicycles that are suitable for both adults and children with special needs.

Een oplossing die perfect bij je past.

Veel van onze fietsen zijn direct klaar voor gebruik. Soms gaan we een stapje verder om de fiets perfect aan te laten sluiten bij je wensen.

Daarom kan je bij ons ook, stap voor stap, je eigen Huka-fiets op maat samenstellen. Gebruik onze configurator of neem contact met ons op, waarbij we je kunnen adviseren welk model het best bij je situatie past.

Pulmonologist Ralph Koppers is enthusiastic about the NRGbike balance bike.

In the fall of 2010, pulmonologist Ralph Koppers began wondering why balance bikes weren't being used more widely as a mobility aid. People who already use balance bikes are very enthusiastic. Furthermore, balance bikes offer a wide range of functionalities. NRGbike was born from this background.
